

Dear Families,

We want to let you know that if your athlete visits a doctor, dentist, counselor, (any medical professional) for ANY reason during the season they must bring a note releasing them back to practice.

This is a WIAA rule that we must comply with so that your athlete and our school remain eligible. Medical professionals are familiar with the regulation and will have no problem providing you a note if it is requested. The note does not have to provide information about your child's visit it only has to release them back to practice. Your athlete will not be able to participate in practice and/or competitions until a release is provided.

Thank you for your attention to and understanding of this matter,

Holly Black
Head Coach
